

English language requirements

Applicants whose first language is not English should be able to show evidence of their English language ability. Typical English as a foreign language requirements of our Departments are listed in the table below. If you have a choice of qualifications, we prefer IELTS for its detailed reporting.

Any applicants intending to complete a TOEFL qualification should enter the University's DI (Designated Institution) Code 3065 when they register for their test.

Where an IELTS score is marked with a **u**, the Department asks for at least 6.0 in all units of IELTS.
